## PROFILE

Computer Science student with a hands-on focus on networking and infrastructure. Designs and operates a segmented network with OPNsense, VLAN isolation, WireGuard VPN, and Cloudflare Zero Trust on a self-built production homelab. Currently studying for CCNA 200-301. Fluent English (CAE C1), German B2 (DSD II). EU eligibility from Jan 2027 (Italian citizenship).

## EDUCATION

**Pontifical Catholic University of Paraná** | *B.Sc. Computer Science* **2024 – 2028**

- Expected graduation: March 2028. Relevant coursework: Computer Networks, Network Security, Operating Systems.

**Swiss School of Curitiba** | *IB Bilingual Diploma* **2017 – 2020**

## EXPERIENCE

**Court of Justice of Paraná (TJPR)** **Curitiba, Brazil**

*IT Intern* *Aug 2021 – Dec 2022*

- Configured Nginx as web server and reverse proxy for a PHP application serving the TJPR School of Magistracy; deployed on AWS EC2 with automated deployments via GitHub Actions.
- Containerized the application with Docker and Docker Compose; administered MySQL database.
- Built backend and frontend in PHP for certificate management and administrative workflows.

## PROJECTS

**Homelab – Network Architecture** | *Personal Production Environment* **Ongoing**

- Designed and operates a network with OPNsense as the primary firewall/router: VLAN segmentation (IoT isolated from production), per-interface firewall rules, and NAT.
- Maintains WireGuard VPN for secure remote access and Cloudflare Zero Trust with TOTP/MFA for public-facing services.
- Manages recursive DNS, DHCP, and ad/malware filtering via AdGuard Home; Nginx reverse proxy with SSL/TLS termination for internal services.
- Two-node Proxmox VE cluster with VMs and LXC containers; ZFS pools with real disk-failure recovery experience; full observability with Prometheus, Grafana, and Scrutiny.

**Segmented IoT Network** | *ESP32 / MQTT / Frigate NVR* **Ongoing**

- Fleet of ESP32 devices on an isolated VLAN, communicating via local MQTT broker with Home Assistant; Frigate NVR with AI object detection for surveillance.

## TECHNICAL SKILLS

**Networking** OPNsense (firewall, NAT, rules), WireGuard, VLANs, DNS/DHCP, TCP/IP, Cloudflare ZT/Tunnels, Nginx, AdGuard Home

**Infrastructure** Linux Admin, Proxmox VE, Docker/Compose, LXC, ZFS

**Monitoring** Prometheus, Grafana, Scrutiny (S.M.A.R.T.)

**Dev/Tools** Bash, Python (basic), GitHub Actions, Git, PHP, MySQL

**IoT/Embedded** ESP32, ESPHome, MQTT, Home Assistant, Frigate NVR

**Languages** Portuguese (Native), English (Fluent – CAE C1), German (B2 – DSD II), Italian (Basic)

## CERTIFICATIONS

Cambridge Advanced English – CAE C1 | Deutsches Sprachdiplom – DSD II B2 | In progress: CCNA 200-301
