EDUCATION

Pontifical Catholic University of Paraná | *Computer Science* **2024-2028**

- Expected graduation date: June 2028
- Data Structures, Operating Systems, Databases, Object-Oriented Programming

Swiss School of Curitiba | *High School* **2017-2020**

- Brazilian High School Diploma
- IB Bilingual Diploma (International Baccalaureate) | SCORE: 28/45

EXPERIENCE

Court of Justice of Paraná **Curitiba, Paraná**
Software Development Intern *Aug 2021 - Dec 2022*

- Actively participated in the development and maintenance of an academic management system, using various technologies (PHP, MySQL, HTML/CSS).
- Implemented and utilized Docker, Docker Compose, and GitHub Actions, streamlining development and deployment processes through CI/CD practices.
- Collaborated with team members on feature design, code reviews, debugging, and technical problem-solving, ensuring software quality.
- Deployed infrastructure for data hosting and processing on cloud platforms (AWS EC2, GCP Compute Engine).

CERTIFICATIONS

Cambridge Advanced English (CAE | Level B2).

Deutsches Sprachdiplom (DSD | Level B1/B2).

SKILLS & INTERESTS

Technologies Python, Bash, PHP, JavaScript, C, Java, SQL, Docker, Kubernetes

Languages Portuguese (Native), English (Fluent), German (Intermediate).

Platforms/Hosting AWS, GCP, Azure, Proxmox, Grafana, Prometheus

Interests Infrastructure, Music, Hosting, IoT, Home Automation, Linux.

PROJECTS

Homelab (Home Computing Lab) | *self-learning server* **Ongoing**

- Utilized Proxmox, Docker, Home Assistant, Virtualization, pfSense, Nginx, Grafana, Kubernetes, Portainer.
- Implementation of various industry technologies for the purpose of learning problem-solving.
- Learned to use virtualization and automation to implement more robust systems.
